IT IS AGREED BETWEEN THE EXECUTING BROKER AND THE CUSTOMER NAMED HEREIN THAT:

- TD Ameritrade Clearing, Inc., member of FINRA/SIPC acts as the clearing agent.
- This confirmation is a transaction advice, not an invoice. Remittance of funds or securities is due on or before settlement date. Certain security information is collected at the time the confirmation is generated and may vary from the information at the time the trade was placed.
- You will report any errors immediately and/or notify us if not entirely in accordance with your understanding.
- All transactions are subject to the rules, regulations, requirements (including margin requirements) and customs of the Federal Reserve Board, the Securities and Exchange Commission, the Exchange or market (and its clearing house, if any) where executed, and of any association whose rules and regulations govern transactions in said market, and to all the terms of our general customer's agreements between you and us. Wisconsin customers' agency trades are unsolicited.
- The securities described are, or may be hypothecated under circumstances which will permit the commingling thereof with securities carried for the account of the other customers. Such commingling, if any, ceases upon payment by you for these securities in the net amount due.
- The name of the other party or broker in the transaction, the date, the time of execution, source and amount of remuneration will be furnished upon request, if not already displayed.
- If this transaction is a sale and the securities are not already in our possession and do not represent a short sale, please forward them immediately to avoid possible payment of premium on securities borrowed.
- If payment is not made on or prior to the date required by Regulation T of the Federal Reserve Board, we reserve the right without further notice, to cancel this transaction, or at our option, to sell the securities covered hereby and hold you liable for resulting loss.
- Commission/Fee represents base commission and any options contract, exercise, and assignment fees. For Alternative Investments (AI), also called Non Standard Assets (NSA), Commission/Fee represents transaction fees applicable to purchases, capital call processing, and redemptions. TD Ameritrade will charge a Reg Fee on certain transactions. These charges are typically based on fees assessed under various regulations applicable to transactions. It may include any of the following: a sales fee on certain sell transactions (assessed at a rate consistent with Section 31 of the Securities Exchange Act of 1934), the Options Regulatory Fee (applicable to options transactions), and the Trading Activity Fee (assessed at a rate consistent with Section 1 of Schedule A of FINRA's By-Laws), among other charges. Transactions in foreign securities (including foreign company ADRs that trade in the U.S.) may include taxes and fees charged by the foreign markets or governments, which may be reflected in the price of the security or charged as an independent line item on your monthly statement.
- Misc. Fees will be explained upon request. For transactions involving certain Index Options, TD Ameritrade may charge an Index Option Fee in accordance with the Chicago Board Options Exchange (CBOE) Global Markets, Inc. fee schedule. This fee will be reflected in the Misc. Fee field. A copy of the CBOE Options Exchange Fee Schedule can also be found on www.cboe.com. Other Misc. Fees may include Prime Broker fees or Special Settlement fees, where applicable.
- If this transaction involves a debt security that is subject to call or redemption before maturity, the debt security may be called or redeemed in whole or in part before maturity which could affect its yield. Additional information is available upon request. On zero coupons, interest and multiplier securities, no periodic payment of interest or principal are generally made. These securities may be callable, below maturity value, without notice by mail to holder unless the securities are held in registered form. On asset backed debt securities, yields are subject to fluctuation depending on prepayment, specific information is available upon request. For inflation indexed securities yield to maturity may vary due to inflation adjustments.
- The firm receives compensation for directing listed and over-the-counter securities, and options order flow to selected market centers for execution. The source and nature of payment received in connection with a particular transaction will be furnished upon request
- Leveraged and inverse ETFs entail unique risks, including but not limited to: use of leverage; aggressive and complex investment techniques; and use of derivatives. Leveraged ETFs seek to deliver multiples of the performance of a benchmark. Inverse ETFs seek to deliver the opposite of the performance of a benchmark. Both seek results over periods as short as a single day. Results of both strategies can be affected substantially by compounding. Returns over longer periods will likely differ in amount and even direction. These products require active monitoring and management, as frequently as daily. They are not suitable for all investors.
- Bonds and/or fixed-income securities trade differently than equity securities and do not trade on a listed exchange. Rather, they trade in the OTC (over the counter) marketplace and liquidity may not always exist for you to sell your position prior to maturity.
- If you request the sale of a nonmarketable or worthless security, TD Ameritrade will be the buyer in the transaction in the event a market cannot be located. In such a sale, you are deeming the security worthless and TD Ameritrade thereby makes no representation regarding the present or future value of these securities. The transaction is irreversible and you will have no further claim to the securities and no claim against TD Ameritrade for any losses related to the sale.

- The security that you purchased may have a minimum denomination set by the issuer, which may reduce the number of investors willing to purchase the security and, therefore, adversely impact the price that you receive for the security. The quantity of securities you purchased is below the minimum denomination and may adversely affect the liquidity of the position unless you have other securities from the issue that can be combined to reach the minimum denomination.
